

PEAK STRIDE™ with LUTIMAX™

Advanced, effective joint support supplement to maintain strong, healthy connective tissue and enhance elastic function of the body's "shock absorbers". PEAK Stride™ with LUTIMAX™ is especially important for working dogs, canine athletes and aging dogs.

"The Ultimate Joint Support Supplement for Your Dog!"

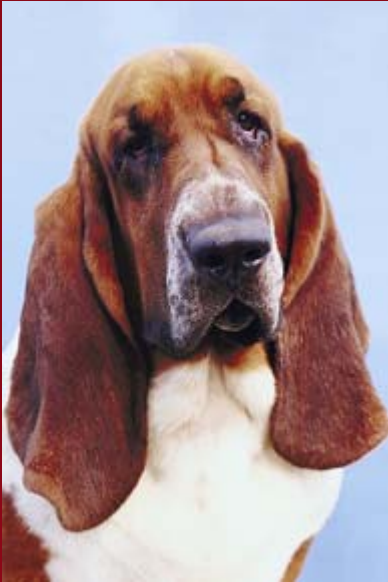

PEAK STRIDE™ with LUTIMAX™ is the ultimate joint support supplement for dog health. All active ingredients are pharmaceutical grade and profiled according to the latest medical research, in maximally effective ratios. Powerful **ANTIOXIDANT AND ANTI-INFLAMMATORY** nutrients synergistically **REDUCE INFLAMMATION AND** enhance the effectiveness of the main joint support factors. Natural herbal ingredients target specific sources of inflammation and help reduce pain & swelling. This makes **PEAK STRIDE™ with LUTIMAX™** the most advanced joint formula available today.

3-Way Relief and Healing: **PEAK STRIDE™** is designed to help solve dog joint support problems in this exclusive 3-step method.

Reduce Pain & Swelling due to inflammation: **PEAK STRIDE™** with **LUTIMAX™** and natural herbals including willow, bromelain, curcumin and Omega-3s target specific sources of inflammation like TNF-alpha, IL-1B, prostaglandins, and unlike drugs, cause no side effects. **LUTIMAX™** blocks inflammation and degeneration before it happens at the first level of the immune system by blocking free radicals and the enzymes responsible for inflammation. Your dogs joints will immediately be relieved of the cause of their pain, stiffness, and age when the inflammation that restricts their mobility is neutralized.

Heals Injured Connective Tissue: **PEAK STRIDE™** with **LUTIMAX™** supplies the building blocks Glucosamine and Chondroitin helps the body repair itself faster by blocking inflammation and free radicals and letting the body heal as it was designed to do. **PEAK STRIDE™** with **LUTIMAX™** enhances the re-growth of damaged connective tissue.

Protect Joints Against Further Injury: **PEAK STRIDE™** with **LUTIMAX™**, N-Acetyl Glucosamine and more, help improve integrity and health of connective tissues.

Use the Power of PEAK Stride™ with LUTIMAX™ in Your Program

Easy to use and the dosages are adjusted to specific needs. Just sprinkle onto any dog food during periods of joint problems, or as a preventative measure in older or "at risk". Preventing dog joint injury is much smarter than healing after an injury.

Athletes, Injuries, Muscle Soreness - The wear and tear on dog joints during hard workouts is underestimated, especially in large muscular breeds. PEAK Stride™ can enhance the elastic function of the body's "shock absorbers", helping to prevent injury. Herbal anti-inflammatories help ease muscle soreness.

Older Dogs, Hip Dysplasia, Chronic Joint Pain, Arthritis - The elasticity and health of connective tissue declines as part of the aging process, because of a drop off in the body's own production of joint support factors. PEAK Stride™ helps "turn back the clock", returning biochemistry to that of a dog in its prime. This increases movement, mobility and quality of life.

Ingredients:

Cooked chicken powder, flax seed powder, **LUTIMAX™**, d-glucosamine hydrochloride, chondroitin sulfate, canola oil, willow bark, magnesium oxide, silica powder, glycerine powder, ferrous fumarate, dl-alpha tocopheryl acetate, ascorbic acid, zinc oxide, copper glu-conate, d-calcium pantothenate, niacin, vitamin A palmitate, riboflavin, manganese sulfate, bromelain, borage oil, quercetin, licorice rice extract, hydrolyzed gelatin, pyri-doxine hydrochloride, thiamin hydrochloride, vitamin D3, potassium iodide, folic acid, cyanocobalamin and biotin.
